### **1) INTRODUCTION:**

**Axel Oil and Gas Company Limited is a premier indigenous Oil and Gas Company that provides unmatched professional drilling and engineering services, logistics and Procurement, project management and environmental management services to the Oil and Gas industry in South Sudan. It is also involved in the marketing and sales of crude oil and general refined petroleum products. Axel Oil and Gas company is strategically positioned to obtain a competitive edge to achieve its corporate vision.**

# Vision

**.To be acknowledged as the most excellent Oil and Gas service provider in South Sudan that uses indigenous resources for reliable and professional service provision to foster industry development.**

The background of the slide is a photograph of an industrial facility, likely an oil or gas refinery. It features a complex network of large, metallic pipes, valves, and structural supports. The lighting is dramatic, with strong highlights and shadows, giving the scene a sense of depth and scale. The overall color palette is dominated by the metallic blues and greys of the industrial equipment, with some warmer tones from the lighting.

## Mission

- To deliver valuable integrated services through modern innovations and effective engineering solutions that meet international standards.
- To develop South Sudanese human resource capacity and talent while maintaining efficiency, quality of service and delivery of value added results to all our clients in the oil and gas industry of South Sudan.

## OUR POLICY

### ENVIRONMENTAL POLICY STATEMENT.

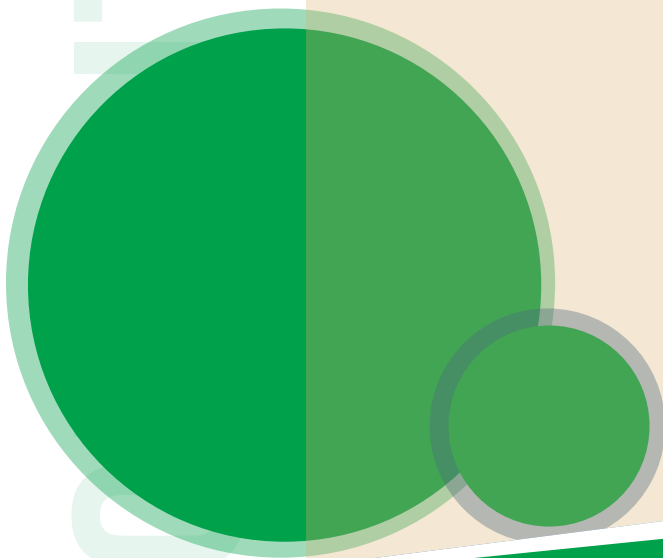

The need for environmental protection forms an integral part of our activities at Axel oil and gas. We strongly believe in environmental conservation and protection because, we believe that our success and future is entirely linked to our environment, the sound health of our employees, clients and general public.

The fact that our services and the general activities of our employees may have a great impact on the environment poses a great concern to us. Therefore, we endeavor to operate in harmony with the environment by emphasizing material management, production management, waste management, energy saving activities, disposal of waste management and training employees on how to mitigate the impact of our activities to the environment. We have a fully documented environmental policy handout that is available on demand.
